

Corporate Sponsors

Corporate Sponsor companies pay an annual fee to Four Seasons Health Club, based on the number of total employees, which then allows their employees the benefit of joining at a discounted corporate rate. A corporate membership saves employees over 20% off the regular membership fees, and also allows out of town employees access to our facilities with reduced guest fees.

As a corporate sponsor of Four Seasons, we can also deliver a variety of employee wellness programs and services for your workforce either at one of our facilities or at your worksite. Current corporate sponsors have priority to work with our qualified and experienced staff to provide educational seminars, motivational programs or hand-on personal training/exercise classes to your employees.

Other benefits of being a Four Seasons Corporate Sponsor include:

- Free marketing opportunities on our website with our Corporate Spotlight and Corporate company listings. With a membership base of close to 8,000 households, this is great exposure!
- Free reservation of our Community Room at Four Seasons II. This is a wonderful off-site meeting location that accommodates up to 18 people and has helpful meeting amenities including a large plasma screen with PC and DVD hook-ups, wi-fi access, marker board, flip chart, refrigerator and sink. Beverage service is available for a nominal fee. The individual who reserves the room must be a Four Seasons member and in attendance throughout the entire meeting.
- Opportunities to become involved with various Four Seasons' exclusive member and community outreach events.
